The view is tremendous, the location majestic and the property timelessly beautiful and simply splendid. The superb architecture, embedded amidst an unbelievable diversity of plants, lush greenery and glorious outside areas, finds a more than suitable setting in the impressive natural backdrop. The uncompromising, vibrant quality of the structure and the vast, picturesque beauty of the location harmonise and inspire perfectly. The pool and outside areas have a rather modern castle-like character, which conveys the pleasantly understated luxury and comfortable spaciousness. The numerous rooms captivate and vary from imposing distinction to elegant formality and refreshing homeliness. The décor displays an exquisite opulence and emphasis is also placed on exceptional quality and tasteful regal design, which will especially delight connoisseurs of effortless perfection. Furthermore, even the spa-area with pool and sauna reveals an extra large measure of refinement. Naturally, there is a home automation system, a garage for at least three vehicles and a private deep well for free water, while an additional building plot for a guest-house or suchlike is part of this super property, which must be unique on the northern Costa Blanca. Heated and covered indoor pool with counter current, Jakuzzi, gym area, own well, carport for 3 cars, carport for camper (10m), space for construction of another villa, possibility to extend main villa.
