A building situated in heart of the historic city centre of Valencia. Located in the area of the Martin's Abbey, (Abadía de San Martin) next to the main streets and locations of the historic center of Valencia such as Poeta Querol, Marques de dos Aguas, Plaza de la Reina, Central Market, etc. The property was an old bourgeois house of the nobility of Valencia. The total constructed area is 1000 m2 distributed over 4 floors and a commercial ground floor space pertaining to the main façade, and 3 additional floors and a further commercial space pertaining to the secondary façade. Currently, the building is in need of total renovation, however at Found Valencia, we have a team of architects and builders who can help develop this process. The business possibilities of the building are multiple and it could be transformed into a project for apartments as well as other commercial ventures. * Please note we can assist and arrange all aspects of construction and rehabilitation works, many examples of our works available for inspection.

Ref: FV9250

1,900,000 €

(Valencia City)
